

DR. LUCILLE CORTI SCIENCE COLLEGE

P.O BOX 928 GULLU.

23/02/2016.

A poem.

When I looked to the North,
I saw darkness.

When I looked to the south,
darkness

To the West, only darkness,
To the East the same.

Dr. Lucille had no test tubes,
NO microscope, no conical flask,
NO retort stands, no crucibles,
NO skeletal model, no sodium hydroxide,
NO books for the students.

BUT HUSH, wait, LOOK, I see light
At the end of the tunnel
I see a lot of science equipments
in our science store.

We were told these science equipments
came from Italy.

From caritas Antoniana of Padova

Oh my God.

God bless caritas Antoniana.

God bless Our friends.

God bless Italian People.

Amen.

DR. LUCILLE CORTI SCIENCE,
COLLEGE,
P.O. BOX 928 Gulu,
23rd/02/2016.

THE DIRECTOR,
CARITAS ANTONIANA,
PADOVA - ITALY.

Dear Sir,

RE: APPRECIATION:

I am here by submitting this letter to Caritas Antoniana. I Ajok Flavia, on behalf of the students of Dr. Lucille Corti we are indeed happy to appreciate you for what you have done to our school, for us the students of Dr. Lucille Corti we never knew that we can also learn practically but with the help of your team you have made the students of Dr. Lucille Corti on how to use the equipments in the laboratory and other scientific experiments. With all these we want to promised you that with the help of the equipments given we are going to have many scientists like for example Doctors, Nurses, Engineers and technicians who will help to developed the knowledge of Science in and out the country. But we are performing our experiments in small classroom without proper furniture. we are praying that God blesses us more and more so that we hope that Caritas Antoniana can support us with a science laboratory.

God bless you,

Yours in Christ

AJOK FLAVIA

**DIRECTOR CARITAS,
ANTONIANA,
PADOVA-ITALY.**

Dear; Sir/Madam

RE: LETTER OF APPRECIATION

I would like to highly appreciate your office for the effort made to develop our school by stocking our laboratory with apparatuses and chemicals. This has made the work of the science teachers easier and simplified since most lesson can now be done practically. It has also given us the hope to overcome poor performance in science nationwide as recognized by the governing body Uganda National Examination Board (UNEB). According to their report which indicated that, science subjects has been poorly done due to insufficient ex poser of students to practical as a result of inadequate laboratory apparatuses and chemicals.

In all, we give thanks to the Almighty Father (God) for having guided us and your organisation to achieve the projects propos~~ed~~ for the school in order to strengthen the teaching and learning of science in our country Uganda. It is therefore time for us the science departmental teachers to recognize your office in support to the school of which we believe only God can pay your organisation.

With all these few remarks of appreciation, the school is further requesting your office that, May the door to your organisation remains open to us. This shall make us eligible to knock for any other assistance in support to the school for strengthening science education.

Thanks

Yours respectfully

.....

Mr. OYIK FELIX

HEAD OF SCIENCE DEPARTMENT
