

KAROLI LWANGA HOSPITAL - NYAKIBALE
P.O BOX 31, RUKUNGIRI. UGANDA.
15TH NOVEMBER, 2016.

TO: THE HOSPITAL FUNDERS: ITALY

I am Akampa Albert a theatre staff and on my behalf and on behalf of theatre department, Allow me state that we are very grateful for the solar power project.

We were always affected by power shut outs whenever we were in operation. This did not only affect us as health workers but had far reaching impacts on the caregivers of whoever was undergoing an operation when power went off. This left them wondering of what could be the outcome of such surgery.

Thus I must say we as a community of Nyakibale Hospital are grateful for the solar project for it is now that operation go on with or without power from EMEME.

Thanks go to the donors, to management and my God bless you always !!

I remain Akampa Albert
~~Akampa~~
Theatre staff.

TO:

THE HOSPITAL SOLAR FUNDERS

CARISTAS SAINT' ANTONIO

DEAR FUNDERS

RE: TESTIMONY ABOUT THE SOLAR SYSTEM IN OUR DEPARTMENT

Warm greetings to the hospital solar funders

We as the radiology department staffs we send our special thanks to u because all along we have been with a problem of power surge in our district where our hospital set up is located

The equipment would go off because of power surge and this would disrupt activities within the department, waiting for the generator to be switched on and would increase on the waiting time of our clients

But from the time solar system was installed we have completely solved that problem of power surge which has been a problem all along

We now completely depend on solar batteries that are powering our equipments, which are steadily stabilized reducing the effect of power surge on them

This has enabled us to become cost effective by reducing on power costs, risks of power surge on the hospital equipments and reducing on the waiting time of clients since activities run smooth due to steady power supply

We are so grateful for such contribution towards the hospital

Special tributes to the funders

TO THE HOSPITAL SUPPORTERS
P.O. Box
ITALY

Dear Sir/Madam,

RE: APPRECIATION FOR SOLAR SERVICES.

I humbly extend my greetings to you and hope that you are all fine. I continue to extend my appreciation towards the kind support that you provided to us.

Before we received the Solar Services in our lecture rooms, we used to have a challenge whenever Hydro Electric Power would go off, especially during the night. As I write to you now, we are able to revise our academic work in night preps even when Hydro Electric Power is off since we have the Solar power.

We thank you so much for supporting us and we promise to take care of the solar power and utilize it effectively so as to go beyond the sky limit in academics.

May the almighty God bless the effort of your hands and keep the bond between us intact.

THANK YOU

Yours faithfully

NINSIIMA YVONNE
