

Student nurse stories

When we joined this school we did not have chairs and tables in the dinning. We picked our meal and ate outside and even in the hostels and now we have a beautiful equipped dining. What a great joy and thank to all who supported in the equipping our dinning may God increase for you. We are happy that when we come back from the hospital tired and we enjoy our meals in a very conducive environment and relax from taking care of the sick as we share our meals

We student are happy and grateful to God for the gift of those who contributed to the equipping our dinning and kitchen that we comfortable while taking our meals with very organized dining. We are able to share our meal with joy and love. We are able even to discuss our academic discussion as we taking our meals

I am soo happy with the dinning that we enjoy our meals in a very comfortable chairs and tables. I do pray for all those who gave us this precious gift that that makes us share our meal together with great joy

Our meals are even sweeter as we share at one table. Thank you for your great support. May God reward you reward you all
